## DETAILED ACTION

### *Claim Rejections - 35 USC § 102*

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 8-11, 13-18, 20-23 and 25-28 are rejected under 35 U.S.C. 102(e) as being anticipated by Edwards et al U.S. Pat. No. 5,555,908.

Edwards discloses a medical valve comprising: a housing having a passage and a piston positioned within the passage (fig. 2), the valve adapted for connection to said second medical implement and having an opening adapted to receive said first medical implement (fig. 2), the piston having a first position in which said piston prevents fluid flow through said valve (fig. 2) and a second position in which fluid flow is permitted through said valve (fig. 3), said passage including a fluid space which automatically and reversibly increase in size when said first medical implement is connected to said valve and which contracts in size when said first medical implement is disconnected to generate a positive flow of fluid in the direction of said second medical implement (figs. 2-4), wherein said housing further comprises at least one screw thread on an outside

surface of said housing (figs. 2-4); as to claims 9-11, 13-15, (fig. 2); as to claims 16-18, 20-23 and 25-28 (see above rejections).

### ***Allowable Subject Matter***

Claim 12, 19 and 24 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

### ***Conclusion***

Applicant's submission of an information disclosure statement under 37 CFR 1.97(c) with the fee set forth in 37 CFR 1.17(p) on 8/27/04 prompted the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 609.04(b). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
